Dear Kim,

Re our meeting last Thursday 27th April

I am writing to thank you for the generous amount of time you gave us to discuss the impact of the proposed future urbanisation of the Hills on doctor shortages and health services generally.

We are pleased that you share our concerns over the many issues discussed.

It was most gratifying that you responded favourably to our view that the Hills should be declared an area of special significance and be afforded legal protection similar to that enjoyed by the Adelaide Hills.

If you have any queries or require any further information we would be happy to oblige.

Yours sincerely,

Mike Davies
