MUNDARING WA 6073

Your Ref: LSIP/3/259

Dear Sir

**RE : PROPOSED DEVELOPMENT AT PARKERVILLE**

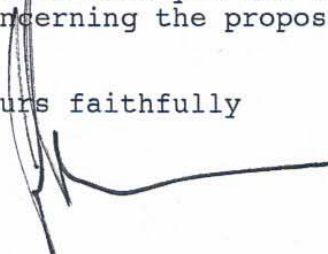

I have been forwarded a copy of correspondence from yourself to the Federal Airports Corporation concerning a development in the vicinity of the Parkerville Locator Beacon.

As you would be aware the above beacon marks the start point for one of our primary instrument approaches at Perth. You may be less aware that it is also a tracking point on which a number of arrival and departure points are located.

While there may be changes over time to some tracks, it would be reasonable to conclude that high levels of air traffic will always be evident as this location is on the extended centreline of runway 06/24.

I would be happy to provide a briefing on this subject to ensure that you are fully aware of the environmental issues concerning the proposed development.

Yours faithfully

  
John McAleer  
Air Traffic Control Manager  
Air Traffic Services Perth  
22 April 1997
